

Team ER Multi- Sport Race Team

What is Team ER?

Team ER is a multi-sport team founded in 2005 in a joint effort between Eddy's Bike Shop of Stow, Ohio and Ritchies Sporting Goods of Tallmadge, Ohio. These two family-owned and operated businesses envisioned assembling a team of athletes who would not only train and race together, but who would also promote multi sport and its fitness benefits, develop aspiring athletes helping them to achieve their goals and represent their sponsors in a professional manner.

Who are the Team ER members?

Team ER members range from relative beginners to elite athletes who compete in local races to national championships. Several of our top athletes have compiled both male and female overall race wins and top age group places in local and national races. Our team members have competed in the top national races including The Boston Marathon, USA Triathlon Age Group Nationals, and several Ironman Triathlons.

This year we have added several promising athletes and expect nothing less that another great season. We have also seen our beginners start to move up the ranks and expect podium finishes from some of them this year.

Team ER has also "graduated" one team member to the rank of pro-athlete.

Benefits of Sponsorship

Team ER's members will be competing annually in over one hundred and seventy-five events. Team members are required to wear official team uniforms, with sponsor logos at all races they compete in. In addition warm up and cool down gear with sponsor logos are to be worn providing maximum exposure.

At each designated race a team banner with sponsor logos. This will be attached to a tent where the team will gather before and after the race.

In addition to representing our sponsors out on the race course, members are also required to wear their uniforms during training. All team members have signed letters of agreement insuring our sponsors will be represented in a professional manner.

Each team member is also required to perform two community service events each year. Again, this is done wearing clothing with logos that identifies us Team ER members. This allows for additional impressions for our sponsors and provides the team an excellent avenue to give back to the community.

Finally, the team web site www.ohioteam-ER.com offers us yet another way to spread our message and promote our sponsors. We will be doing multiple press releases throughout the season and are contacting all local newspapers and sports and fitness publications to request coverage for the team and help draw viewers to our website.
